

Trash pumps

Heavy Duty Caffini Trash Pumps

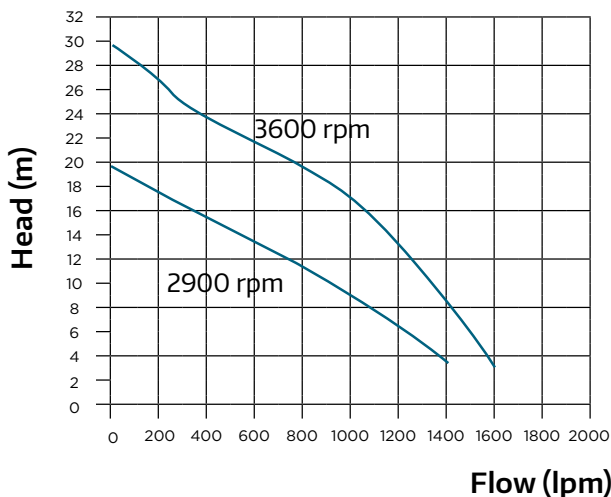

Self priming trash pumps, due to their easy maintenance, can be used with great results for transferring dirty water containing sludge, sand and solids.

The fast self priming time, the large solids handling, the high capacity and head capabilities, and quality are the main points which characterise our Caffini TrashLib pumps!

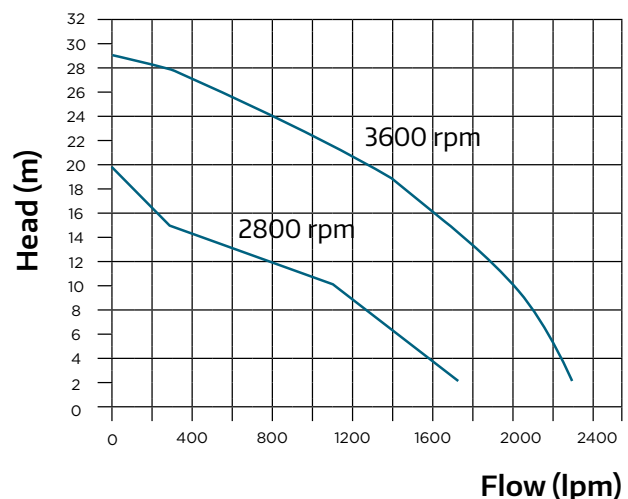

- Aluminium casing
- Cast iron volute and impeller for improved wear resistance.
- Rubber lined cast iron wearplate
- Grease lubricated hard faced mechanical seal

TrashLib – 3"

TrashLib – 4" L

Model	Max Capacity L/Min	Max Suction	Self-Priming Time	Max Solids handling	Max Head	Weight Kg	Honda Engine
